COMPANY W.L.L.

FERROUS & NON-FERROUS METAL SCRAP  
PROCESSORS & RECYCLERS

# ABOUT US

Bahrain Scrapmould Company W.L.L is the biggest metal recycling company in the Kingdom of Bahrain founded in 2001 by a group of prominent Bahraini Businessmen. The company was started at a moderate level and has grown significantly during the last 22 years and engaged in waste metal processing and recycling with an end-of-life vehicle (ELV) Lindemann car shredding plant to recycle retired car scrap and light steel waste feedstock. Also, we operate a Lindemann guillotine shear machine for processing heavy steel scrap. In addition, we have European briquetting machines for non-ferrous scrap metals recycling and many more plant and equipment for recycling various kinds of waste feedstock. We work closely with several private and public companies in the Kingdom of Bahrain, manage metal waste, and recycle efficiently with decades of experience in the recycling industry. Our Company is well-known and reputed in the domestic and international market for providing quality recycled raw material and services.

Our raw materials are exported to international markets to end-users for making finished products.

We have our own comprehensive fleet of vehicles, grapples, and other material handling machinery to effectively recycle many kinds of metal waste. The company is operated by a well-trained workforce to deliver the best quality service and goods to our customers in domestic and overseas markets.

Our main markets are Asia, Far East, and the Middle East. We handle 36,000 tons per annum waste feedstock which is generated in the domestic market.

# CEO MESSAGE

Greetings from *Bahrain Scrapmould Company W.L.L!!!*

Bahrain Scrapmould Company W.L.L is a unique and innovative recycling Company in the Kingdom of Bahrain. It aims to find a perfect solution to the growing concern that affect the environment and human from the post-consumer metal waste generated every day within the Country. Our primary objective serves the nation by recycling ferrous, non-ferrous scrap waste to make the country's atmosphere safer and pollution-free while generating revenue from the waste is a secondary one. Our company team continues making sustained efforts to establish a stable recycling system by utilizing all available resources and creating a sustainable and comfortable living environment. We ensure our Company's professional recycling activities always meet legal compliance and build trust by catering best quality recycled raw material to our customers Worldwide.

*Derrick Mascarenhas*

# MEMBERSHIP AND ACCREDITATIONS

Our company is committed to adopting the highest international standard and global best practices by the following certification.

- ISO 9001:2015 Quality and Management System
- ISO 14001:2015 Environmental Management System
- ISO 45001:2008 Management System Occupational Health and Safety

We are a proud member of the following international trade associations

- BIR (Bureau of International Recycling) Brussels
- BMR (Bureau of Middle East Recycling) UAE
- Bahrain Chamber of Commerce Reg. No. 10984
- MRAI (Material Recycling Association of India) India

# MILESTONE

We understand the requirement of recycling through decades of experience in the recycling industry. For the last 20 years, the Company contributed to the environment and economy of the Kingdom of Bahrain and generated wealth from waste by recycling thousands of tons of obsolete end-of-life vehicles and metal scrap by exporting the semi-finished raw material to the international markets. We strive to meet the international end users' raw material requirements and continually update technology and know-how according to the changing environment.

COMPANY W.L.L.  
KINGDOM OF BAHRAIN

# MISSION

Our mission is to provide recycling and waste management services, protect the environment of the Kingdom of Bahrain, and promote recycling to ensure a safe and healthy community for current and future generations.

# VISION

Metal waste recycling by adopting best management practices of obsolete feedstock in the Kingdom of Bahrain, lead to an environmentally sustainable circular economy.

# CORE VALUES

Our core values define the policy of Bahrain Scrapmould Company W.L.L and they reflect the best of our organizational culture and character. We provide continual training to our staff to ensure to comply with the requirements of Quality Management Systems ISO 9001:2015 (QMS), Environment Management Systems ISO 14001:2015 (EMS), Occupational Health & Safety Management System ISO45001:2018 (OHS). We always export the best quality recycled metal scrap to our customers worldwide with international specifications and standards such as value define us and our success.

# AIM

To be a responsible environmentally friendly recycler of metal waste and a reliable supplier of the best quality recycled raw material to our valuable customers in the international market.

## QUALITY

We recycle and produce various grades of ferrous and non-ferrous scrap raw materials as per ISRI specification to meet market demand. Our products are ready to use for second stage recycling at the customer end for manufacturing various finished products. By using knowledge acquired in decades of experience, our recycling business is successful and sustainable. In addition, we apply ISO quality management system requirements to ensure our customers are satisfied with our services and quality products.

## PERFORMANCE

We ensure our commitments are fulfilled in time, face new challenges accept responsibilities and update with technology innovation. We are committed to serving the Kingdom of Bahrain's industrial sector, Ministries, Supreme Council for the Environment by performing as per their instruction and guidelines.

## COMMITMENT

Bahrain Scrapmould Company W.L.L committed continually in investing and acquiring the latest technology scrap processing plant and machinery, train our company employees on Quality, Environment, Health, and Safety. Also, we are committed to a fair-trade policy system that advocates the payment of fair benefits and package for workers, as well as high standards of environmental stewardship and social conduct.

## CARE

We apply the synergy principles among our team members to achieve our company goals and take extreme care of the workforce with great respect as they are the backbone of our company's success and achievements.

## TRAINING

Our company workforce skill development requirement identified from time to time, adequate training given to them to face challenges to perform their work safely for their own health and interested parties.

## EXPERTISE

Our company is committed to continual improvement and identifying skilled and qualified team members. Also, consider the requirement of the latest technology plant and equipment to enhance our product quality, safety, and environment.

# GOALS & OBJECTIVES

Bahrain Scrapmould Company W.L.L's goals are to support the implementation of legal and statutory requirements of the Supreme Council for Environment (SCE) and other ministries' directives. Our objectives are recycling all the metal waste, minimizing waste stream disposed to landfills, and contributing to the Kingdom of Bahrain economy by exporting recycled metals to the world market.

Ensure the sustainable business that supports our team, management, and community in the Kingdom of Bahrain.

Recycling metals in an environmentally sound manner.  
Ensure recycled raw materials are substitutes for virgin materials which helps to reduce carbon footprint.

Educate the importance of recycling and its benefit to the community in the Kingdom of Bahrain for the safe present and future generation.

Develop support programs that optimize the recovery of recyclable materials.

# OUR FACILITIES

Bahrain Scrapmould Company W.L.L operates in two locations. One facility in Al-Mazraa Industrial Park with 15,000 Sq. Meters and another one in the same area, we newly invested and acquired the property with 35,000 Sq Meters which is under development.

In the first yard, we operate an end-of-life ELV shredder and Lindemann Shear machine, process the scrap, and export worldwide.

In the second brand new property, we shall be installing the latest version of the end-of-life vehicle (ELV) shredder with 40 tons per hour capacity and shall start production by the 1st Quarter of 2023.

The steel scrap melting section is also located in Al-Mazraa Industrial Park where we recycle steel scrap and produce steel billets for the export market.

# ELV

## END-OF-LIFE VEHICLE RECYCLING & BENEFITS

The old aged cars (end-of-life cars) that become unfit and unsafe to use on roads require a proper disposal solution in an environmentally sound manner, as part of legal compliance and statutory requirement. Other reasons for recycling ELV cars are to prevent road accidents, fire hazards, and land pollution.

### THE BENEFIT OF END-OF-LIFE VEHICLES RECYCLING

- Environmental regulations and compliance are met
- Disposal through informal method averted
- The cars are recycled in an authorized recycling facility
- Metals scraps are recovered and recycled
- New steel raw material arises from scrap recovered
- Fire Hazard avoided
- Land Pollution prevented
- Usable parts are recovered for reuse
- Car disposal and accountability ensured
- The environment is kept healthier
- Hazardous substances out of the landfill
- The owner of the car gets disposal documents
- Recycled metals reduce the need to mine virgin ore
- Helps to reduce the emission of greenhouse gases
- Negative impact on environment eliminated
- Positive impact on the environment assured
- Recycled steel uses less energy (about 74%) than the virgin ore
- Cash for car ensured
- People become aware of the importance of recycling

# OUR PRODUCTS

## FERROUS SCRAP CATEGORY

- ❑ Shredded Steel ISRI 210/211
- ❑ Heavy Melting Steel Scrap (HMS)
- ❑ Light Steel Scrap
- ❑ Re-Rolling Scrap
- ❑ Steel Disc Scrap
- ❑ Wheel Drums Scrap
- ❑ Wheel Rims Scrap
- ❑ Cast Iron Scrap
- ❑ Galvanized Iron Scrap
- ❑ Ductile Iron Scrap
- ❑ Alloy Steel Scrap – H11/H13
- ❑ MS Plate
- ❑ MS Pipes
- ❑ Railway Scrap
- ❑ Grinding Media Scrap
- ❑ Mill Rolls and Backup Rolls
- ❑ Collector Bar Scrap
- ❑ Beams and Pipes
- ❑ Ductile Pipes
- ❑ Moon Cut Pipes
- ❑ Reusable Pipes
- ❑ Reusable Plates
- ❑ Reusable valves and fittings
- ❑ Steel turnings
- ❑ Busheling scrap
- ❑ Anchor Chains
- ❑ Blue Steel Scrap

# STEEL SCRAP RECYCLING & BILLET MAKING

We recycle steel scrap and manufacture Billets from scrap steel.

We supply steel billet based on customer orders. The popular size of the Billet is 100X100MMx12 meters. Our Billets are as per international standard used by re-bar mills.

## NON-FERROUS SCRAP CATEGORY

- ❑ Aluminium 6063
- ❑ Aluminium Twitch
- ❑ Aluminium Taint-tabor
- ❑ Aluminium Telic
- ❑ Aluminium Tense
- ❑ Aluminium wheels
- ❑ Copper Mill Berry
- ❑ Copper Berry
- ❑ Copper Candy
- ❑ Copper Birch cliff
- ❑ Brass Honey
- ❑ Brass Ebony
- ❑ Brass Pallu
- ❑ Brass Pales
- ❑ Brass Ocean
- ❑ SS Scrap 304
- ❑ SS Scrap 316
- ❑ SS Scrap 309
- ❑ SS Scrap 310
- ❑ Liner Plate
- ❑ Titanium Scrap
- ❑ Chrome Metal scrap
- ❑ Manganese Metal Scrap
- ❑ Shredded SS scrap
- ❑ A/C and chillers
- ❑ Lead
- ❑ Radiators Scrap
- ❑ Compressor and Motors
- ❑ Cable Scrap
- ❑ Aluminium and Zinc Anode
- ❑ Aluminum and Zinc Dross
- ❑ Reusable portable Machinery

# OUR SERVICES

- ❑ Scrap collection & transportation service
- ❑ Skip Bin Service
- ❑ Heavy Lift and transportation
- ❑ Dismantling and obsolete Machinery
- ❑ Annual and Spot Contract services
- ❑ Daily scrap collection services
- ❑ Demolition and Dismantling Services

# OUR FLEET

We have a comprehensive fleet of vehicles, plants, and machinery fully dedicated to promoting recycling as specified under.

- ▣ Grab and Grapple
- ▣ Excavator mounted material handling equipment
- ▣ Cranes
- ▣ Fork-Lifts
- ▣ Trailers
- ▣ Trucks
- ▣ 6W Pick-ups
- ▣ Hiab Trucks
- ▣ Skips
- ▣ Weigh Bridges
- ▣ Shear Machine
- ▣ Shredder Machine
- ▣ Briquetting Machine
- ▣ Alligator Shear Machine
